## SHOWER DOORS

### Bespoke, made to measure, half height carer doors for shower trays & wetrooms.

Designed for independent & assisted showering. Ideal for use on shower trays or in wetrooms providing ease of use & installation.

#### USER BENEFITS

- Rise & fall hinge system lifts the doors by at least 10mm as they are opened, to prolong the life of the floor seal & make the doors easier to operate.
- Watertight 'click' hinge at door intersections for increased strength & durability or 360° hinge for access flexibility.
- Coloured handles, latches & curtain rail support poles available to assist users with visual impairment or dementia sufferers.
- Easy grip 'D' handles supplied to assist opening.
- Full length magnetic door closing seals the door at the closing point.

#### INSTALLATION BENEFITS

- Made to measure & normally despatched for **NEXT WORKING DAY** delivery\*.
- Pre-assembled for easy installation.
- Wall levelling compensator allows at least 25mm of adjustment for out of square walls & floors.
- Integrated corner block designed to be trimmed to suit 10mm or 38mm radiused floor coverings.
- Step by step, easy to follow installation guides supplied & available to download online.

#### SPECIFIER BENEFITS

- Manufactured in the UK from components that are 100% recyclable.
- Available in a white powder coated finish as standard or Luxe polished etch bright silver.
- Glazed in 3mm impact resistant PET or 4mm toughened glass.
- Half height doors manufactured at 750mm, a preferred height for carers. **Other heights available on request.**
- Standard & bespoke door options available to suit all practical applications.
- All seals manufactured from flexible PVC, rubber or co-extruded rubber.
- **NOW SUPPLIED** with a curtain rail & 2000mm drop, 4oz white, satin striped, weighted, polyester, antibacterial shower curtain.
- Optional 360° hinge system available to enable the doors to fold in & out of the shower area.

Shower doors are suitable for use with showers that have an output of up to 15 litres per minute.

\*Does not include deliveries to Ireland or events beyond our control. Longer lead-time applies for doors glazed with toughened glass.

Glazed with 3mm PET environmentally impact resistant glazing as standard or 4mm toughened glass available on request. (Longer lead-time applies for toughened glass).

Flip over latch will prevent door movement should a carer lean against them & will provide a more rigid enclosure. Available in Blue to assist the visually impaired & dementia sufferers.

360° hinge detail

360° hinge system available to enable bi-fold doors to fold into the shower area, ideal for small bathrooms. Suffix the door reference with 360 when ordering, eg: WF3LH-360.

**Blue latches available for click hinge doors.**

Rise & fall hinges lift the door by at least 10mm and are easy to operate & highly manoeuvrable. Doors will also remain open when in the open position.

Easy to grip 'D' handles supplied for users with limited strength. Also available in Blue & Black to assist the visually impaired & dementia sufferers. (Blue & Black handles available for click hinge doors).

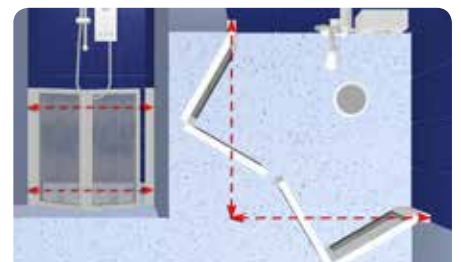

Integrated corner block designed to be trimmed to suit 10mm or 38mm radiused floor coverings.

Luxe polished etch bright silver doors will give a modern appearance to an easy access bathroom, see above left opposite also. Toughened glass available on request.

Supplied as standard with a 2000mm drop antibacterial protected shower curtain to inhibit the growth of bacteria & fungi.

To measure the area for your shower doors to fit, it is important that accurate dimensions are taken from the tile face to tile face or to the proposed closed position of the doors.
