Spray

## Cleaning Recommendations

The soap dish clips off for easy cleaning

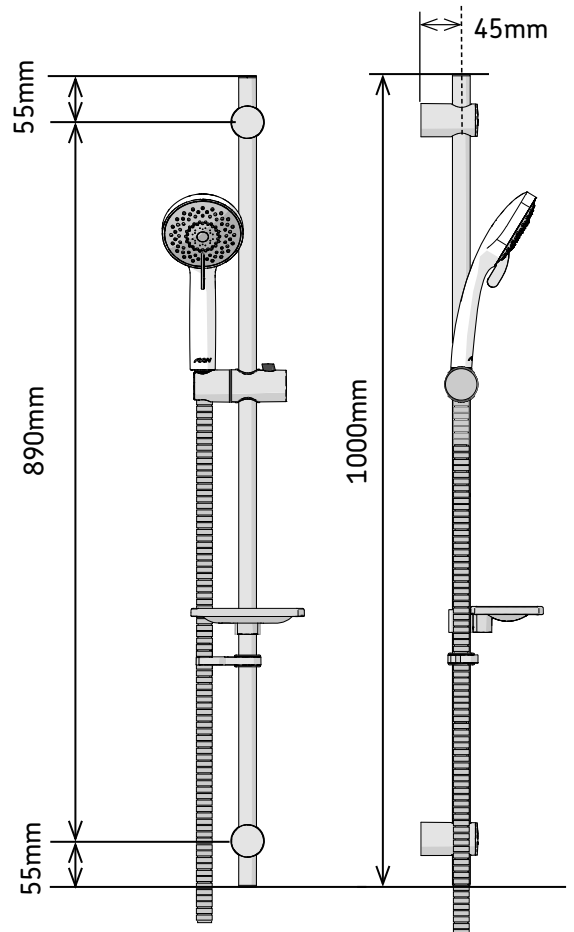

Always keep spray head holes clean and shower hose clear of blockages!

- 1 Mark and drill top & bottom holes in wall and screw the top elbow securely to the wall.
- 2 Clip on the top elbow cover.
- 3 Slide the rail through accessories as shown.
- 4 Feed the rail and attached accessories through the top elbow already secured to the wall.
- 5 Locate the rail hole at the bottom with screw port on the bottom elbow.
- 6 Screw the bottom elbow to wall securely and attach the cover.
- 7 Screw shower hose onto the shower unit.
- 8 Feed the hose through hose retainer and screw shower hose onto shower head (ensuring washers are in shower hose ends)
- 9 Locate shower head into the holder.
