

Product Overview

The Auxillary Pump Switch is designed to activate the pump to drain water away without the need to turn on the shower. This helps facilitate cleaning and excess water drainage.

Features

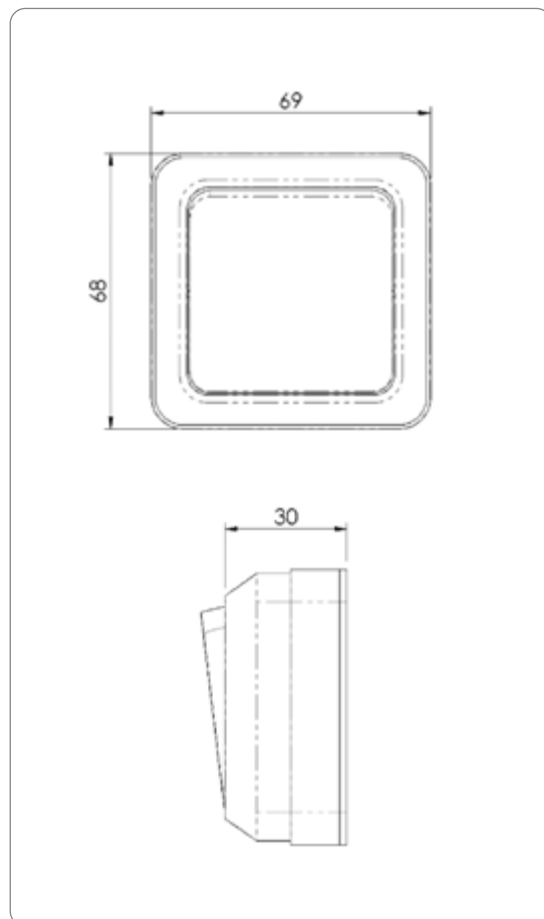

- + All AKW DigiPumps® can be turned on externally with the on/off switch
- + A press retractive switch that contains an internal spring so that it automatically resets back to OFF upon release
- + A wall mounted switch that works in conjunction with the pump without the need to turn the shower on

Benefits

- + The pumps software has been redesigned and upgraded to accept the cable for the switch for easy connection and installation
- + Only a momentary electrical signal is required to activate the pump
- + To facilitate cleaning and support water drainage when excess water drainage is needed

Product Specification

Warranty	5 years
Finish	White
Intensity	10A
Voltage	250V
Number of modules	1 Way
Composition	ABS, Copper parts
Connection type	Screw terminals
IP	IP20
IK	For household use
