A commitment to nature

As a company born in the South Island of New Zealand, nature has always provided our inspiration. Though we never take it for granted, especially when it comes to water.

Pure, fresh water is a necessity of life yet increasingly scarce. That's why at Methven we make taking care of water a primary focus in every product we develop.

A shower typically accounts for around 30% of household water use. So, our innovative shower technologies have been designed to deliver a luxurious experience whilst preserving water.

When you're as passionate about water as we are, making the most of it comes as second nature.

Making magic with water since 1886

Our love of water began the day George Methven began producing brass and iron hardware in New Zealand, back in 1886. Ever since, we've been captivated by its power to transform: to change our moods, lift our spirits, to make us feel refreshed and renewed.

It's a passion that has inspired generations of Methven engineers and designers in a quest to create the ultimate experience of water.

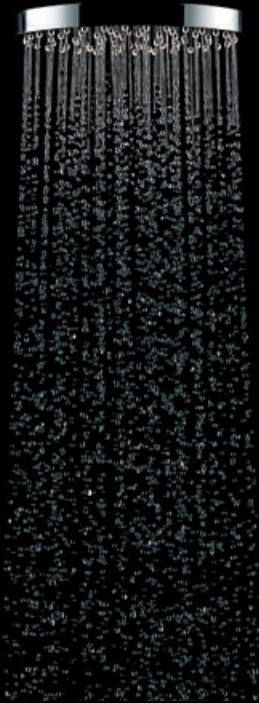

Today, we offer a range of exceptional water experiences that all share one vision. The ability to create a treat for the senses.

This is what sets Methven apart. Because when you experience Methven, you truly experience water.

Our Shower Technologies

Conventional Needle Jet

A conventional needle jet spray was originally designed to allow water to flow as freely as possible and deliver the maximum amount of water.

At Methven we believe in optimising water performance creating the best showering experience but, while using less water thereby reducing our environmental impact.

METHVEN Airstream™

Experience vitality with Airstream™

A refreshing combination of air and water that delivers a rain like feel to your shower.

Fully integrated into the base of the handset, Airstream technology allows air to be drawn in and mixed with water at high pressure.

Each air infused droplet then emerges from the shower head as a larger, softer, rain like drop.

METHVEN

Satinjet®

Experience the sensation that is Satinjet®

A sensation for both mind and body.

Satinjet uses unique twin-jet technology to create optimum water droplet size and pressure.

Delivering 300,000 of these droplets per second*, Satinjet creates a truly immersive, full body shower experience.

*Spray Analysis and Research Services - Test #2010T89+1 Kiri Satinjet at 250kPa

METHVEN

Aurajet™

Experience the unforgettable feeling of Aurajet®

It looks and feels out of this world.

Hidden nozzles generate individual jets of water that collide against precisely angled surfaces within Aurajet's open, seemingly floating, shower head.

The result is a stunning fan of luxuriously dense droplets, delivering 20% more spray force than a conventional shower, and twice the amount of water contact with your skin*. Its enveloping warmth and heavenly feeling has to be felt to be believed.

*Compared to a conventional Methven shower at 9L per minute

TMV APPROVAL

Thermostatic products are an integral part of the Methven and Deva by Methven ranges. For complete peace of mind they maintain a safe water temperature for users and will cut off if the cold water supply fails.

We use third party thermostatic valve accreditation partners to independently test the suitability of product against current legislation. Approval at TMV2 standard means the product complies with BS EN 1111/1287 and indicates suitability for use in the domestic home whilst approval at TMV3 meets

Water Hardness & Warranty

What is hard water?

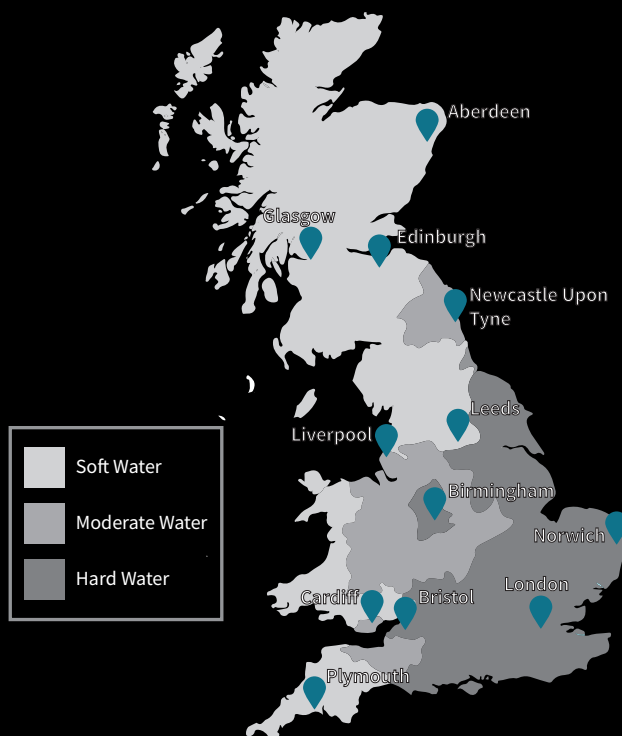

The simple definition of water hardness is the amount of dissolved calcium and magnesium in the water. Hard water is high in dissolved minerals, largely calcium and magnesium.

Hard water and warranty

Hard water is a factor beyond our control. If limescale accumulates it can impact the functionality and finish of your taps and showers and affect the warranty conditions.

Here's a few simple steps to take to avoid damage to your products:

- Clean your taps regularly with warm water and a soft cloth to prevent stains.
- Never use harsh abrasive cleaners as these can damage the products finish.
- In particularly hard water areas consider the installation of a water softener to counteract the effects of limescale.

This map is a guide to water hardness by region, for absolute confirmation of the water hardness in your area please contact your local water authority.

<p>8. Warranty</p>	<p>11. Data Protection 11.1 Each party shall comply with applicable requirements of the Data Protection Legislation. This clause 11 is in addition to and does not replace a party's obligations under the Data Protection Legislation. The terms "Data Controller", "Data Processor", "Data Subject", "Personal Data", "Process" and "Processing" have the meanings prescribed in the Data Protection Legislation.</p>	<p>13. Miscellaneous 13.1 Time will not be of the essence in respect of any obligation with which Methven is required to comply under the Contract.</p>
<p>8.1 Methven will, free of charge, within a period of 12 months from the date of delivery of Goods which are proved to the reasonable satisfaction of Methven to not comply with specification due to defects in materials, workmanship and/or design (other than a design made, furnished or specified by the Customer), repair, or at its option replace, such Goods. This obligation will not apply where: 8.1.1 any instructions as to storage of the Goods have not been complied with in all respects; or the Goods have been otherwise incorrectly stored; or 8.1.2 the Customer has failed to notify Methven of any defect or suspected defect within 7 days of the delivery where the defect should be apparent on reasonable inspection, or within 7 days of the same coming to the knowledge of the Customer where the defect is not one which should be apparent on reasonable inspection, and in any event no later than 12 (twelve) months from the date of delivery.</p>	<p>11.2 For the purposes of the Data Protection Legislation, the Customer is the Data Controller and Methven is the Data Processor. 11.3 Methven shall: 11.3.1 Process Personal Data only on the Customer's written instructions. A waiver of any right, remedy or default will only be valid if it is in writing and signed by the party giving it and only in the circumstances and for the purposes which it was given and will not constitute a waiver of any other right, remedy, breach or default.</p>
<p>8.2 Methven will arrange for any such defective or damaged Goods to be collected and will deliver any replacement Goods to the Customer at Methven's sole expense. If Methven or its carrier is unable to collect the Goods on the date proposed by the carrier due to any act or omission by the Customer then an administration fee of £15.00 will be payable by the Customer (which Methven may deduct from any sums refunded to the Customer).</p>	<p>11.3.3 Not engage another processor without general written authorisation from the Customer and Methven shall remain fully liable to the Customer for performance of the other processor's obligations to the extent the other processor fails to fulfil their data protection obligations. For the purposes of this clause 11.3.3, the Customer authorises Methven to engage: (i) third party delivery companies and couriers to deliver Goods on Methven's behalf; and (ii) third party invoice processing companies;</p>	<p>13.5 The Customer will not be entitled to assign, transfer, charge, hold on trust for any person or deal in any other manner with any of its rights under the Contract or to sub-contract any of its obligations under the Contract. 13.6 Methven will be entitled to assign, transfer, charge, hold on trust for any person or deal in any other manner with any of its rights under the Contract and to sub-contract any of its obligations under the Contract.</p>
<p>8.3 Any Goods which have been replaced will belong to Methven. Any repaired or replacement Goods will be liable to repair or replacement under the terms specified in Condition 8.1 for the unexpired period of the 12 month period from the original date of delivery of the replaced Goods.</p>	<p>11.3.4 demonstrate Methven's compliance with this clause. 11.4 Methven shall immediately inform the Customer if, in Methven's opinion, an instruction from the Customer infringes the Data Protection Legislation. 11.5 If the Customer passes Personal Data about an end-consumer to Methven for Methven to Process, the Customer confirms that it has either obtained consent (in accordance with the requirements of the Data Protection Legislation) from the end consumer to pass the Personal Data to Methven or that the Customer is able to rely on another ground set out in the Data Protection Legislation to pass the end consumer's Personal Data to Methven.</p>	<p>13.7 The parties do not intend that any term of the Contract will be enforceable under the Contracts (Rights of Third Parties) Act 1999 by any person other than the parties. 13.8 The Contract constitutes the entire agreement between the parties and supersedes any prior agreement or arrangement in respect of its subject matter and:</p>
<p>8.4 Subject to Condition 8.5 the Customer's sole remedy and Methven's entire liability in respect of (i) Goods which do not comply with specification due to defects in materials, workmanship and/or design; and/or (ii) Goods which are otherwise defective, shall be as set out in this Condition 8.</p>	<p>11.5.1 subject to clause 11.6, not transfer Personal Data outside of the European Economic Area without notifying the Customer in advance and Methven shall ensure that the transfer is made in accordance with the Data Protection Legislation and that the organisations to which the Personal Data is transferred ensure an adequate level of protection; 11.5.2 assist the Customer to respond to any request from a Data Subject and to comply with the Customer's obligations under the Data Protection Legislation; 11.5.3 notify the Customer without undue delay of a Personal Data breach (which has the meaning given to it in the Data Protection Legislation); 11.5.4 the Customer's written direction, delete or return Personal Data to the Customer on termination of the Contract unless Methven is required by law to store the Personal Data; and 11.5.5 maintain complete and accurate records and information to demonstrate Methven's compliance with this clause.</p>	<p>13.8.1 neither party has entered into the Contract in reliance upon, and it will have no remedy in respect of, any misrepresentation, representation or statement (whether made by the other party or any other person) which is not expressly set out in the Contract; 13.8.2 the only remedies available for any misrepresentation or breach of any representation or statement which was made prior to entry into the Contract and which is expressly set out in the Contract will be for breach of contract; and 13.8.3 nothing in this Condition 13.8 will be interpreted or construed as limiting or excluding the liability of any person for fraud or fraudulent misrepresentation.</p>
