Description

A budget and cost effective way of joining 2x Ropox Flexi height adjustable worktop frames together to create one corner lifting system.

This bracket set also requires either the FlexiElectric for frequent and independent use or the FlexiManual for less frequent adjustment. Note: These are not included and must be ordered separately in the desired widths.

Key product benefits:

- FlexiCorner suits single person use and can be any size up to 3000x3000mm
- An economical alternative to two separate Ropox Flexi frames
- The hob, sink and preparation area can all be adjusted in one movement
- Useful if space is limited by maximising the corner area
- Max. load of frame is 150kg evenly distributed over the entire frame
- For use with Flexi frames - Electric or Manual
- Not suitable for use with the FlexiBasic
- Frame height adjustable from 650-950mm
- Flexi frames 3000x3000mm maximum width (measured from the outside rear corner)
- Worktops can be fitted to the frames in lengths from 600 – 3000mm

Warranty:

- 1 year manufacturer warranty
