Inta Concealed Timed Flow Shower, Temperature Adjustment Control

£364.80 Inc. VAT

Product Code: NC145CP

Product Images

Description

Inta Timed Flow concealed shower control with temperature adjustment.

Designed for use with the Intamix TMV valves, its non concussive push action automatically closes the shower after approximately 15 seconds.

Rotating the control knob clockwise or anti-clockwise reduces or increases the mixed water temperature.

The automatic closing action and durability of this shower makes it ideal for high use areas such as leisure centres.

Key benefits:

- Timed flow automatically closes the shower
- Non concussive operation
- Adjustable temperature control
- Suitable for use with unvented supplies, combi boilers, gravity and mains pressure systems
- Compatible with Inta's range of concealed shower heads (order separately)

Technical details:

- Min. operating pressure: 0.5 bar dynamic
- Max. operating pressure: 5 bar static
- Max. inlet temperature: 65°C
- Timed flow at 1 bar: 15 ± 3 seconds
- Inlet connections: G ½" F
- Outlet connections: 15mm compression
- Cartridge: ID8112

Warranty:

- 1 year manufacturer warranty
