Ina HTM64-TP5 Lever Taps

£92.53 Inc. VAT

Product Code: TP5002CP

Product Images

Description

Ina HTM64-TP5 compliant taps with $\frac{1}{4}$ turn lever operation, have been inclusively designed for use in hospitals, commercial applications, less able or domestic bathrooms.

The lever has an extended length of 140mm and is fully comply with BSEN200 and the long on/off levers have been designed for easy operation either by hand, elbow or limb.

The tap features a unique self-draining spout to prevent stagnant water, a breeding ground for pseudomonas, does not collect and remain in the spout after use

These taps are intended for use with a thermostatic mixing valve, such as those in the Intamix TMV range.

Key benefits:

- HTM taps
- Complies with HTM64 type TP5
- Lever operation with large paddle for ease of use
- Functional and durable, ideal for hospital or commercial use environments
- Brass construction cartridges and ¼ turn ceramic discs
- Self-draining spout prevents build-up of stagnant water
- Ideally paired with an Intamix TMV for TMV2 or TMV3 compliance

Approvals:

- WRAS approved

Technical details:

- Min. operating pressure: 0.3 bar dynamic
- Max. operating pressure: 10 bar static

Warranty:

- 1 year manufacturer warranty
