## Description

The AWS Chelsea is a premium stainless steel floor to ceiling smooth grab pole with concealed fixing brackets.

Constructed from high quality materials and featuring curved cover plates, the 35mm diameter gives the rail increased strength and stability.

This version of the AWS Chelsea can be a maximum of 2743mm in length, specify your required length. Or it can be cut down as required on site. With a robust welded bottom flange and loose top flange with a hard wearing smooth mirror or sateen polished finish, please select.

### Key benefits:

- Smooth 304 grade stainless steel support pole
- Choice of Mirror or Sateen polished finish
- Concealed fixings with curved stainless steel cover plates
- Bottom flange welded, supplied with a loose top flange to allow for cutting to the required length on site
- Ideal for wet, damp and moist environments
- Suitable for commercial applications
- Doc M compliant
- Made in Britain
