Ropox - FlexiManual, Replacement Winding Handle

Product Code: 20-60566-9

Product Images

Description

Ropox FlexiManual, replacement winding handle for the manual transmission box for the Ropox FlexiManual height adjustable kitchen worktop lift.

As the handle is removable, the handle often gets misplaced or stolen particularly in schools and public facilities.

Key benefits:

- Enables users to adjust the height to find the most comfortable and suitable working position
- Effortlessly change the height to accommodate different tasks and user preferences
- Facilitates a more efficient and productive work environment
- Works with Ropox - FlexiManual height-adjustable worktop lifts
- By comparison - The Granberg Manulift 6350 height adjustable worktop winding handle is fixed to the lift and folds away when not in use

Note: :

This is not a UK stocked item and has to be imported from Denmark with a lead-time of up to 69 days
