£225.48 Inc. VAT

Product Code: 6253-00

Product Images

Description

Safety stop switch for creating your own safety trip plate for mounting beneath cabinets that hang from the Centerlift 6490H height adjustable island and the Sidelift 6400 height adjustable worktop lift.

The package contains the micro-switches and cables. When fitted the safety plate prevents the downward movement of the lift in the event of an obstruction.

Key benefits:

- Safety stop switch package for mounting beneath cabinets
- Compatible with the Granberg Centerlift 6490H and Sidelift 6400
- Contains micro-switches and cables for mounting on your own board
- Includes instructions with milling dimensions

Installation:

Dimensions of the board must be:

- Thickness (mm): 12-16
- Width (mm): 400-800
- Depth (mm): 466

Warranty:

- 2 year manufacturer warranty
