Description

203mm wide aluminium door threshold, designed to stand up to the demands of medium duty traffic as well as temperature extremes.

Low flat threshold at only 6.4mm in height.

The 3.2mm thick aluminium allows you to drill and screw the threshold into concrete without the difficulties you are likely to find using lighter materials - such as buckling under heavy loads or loose fixing screws.

Key benefits:

- Aluminium mill finish
- Grooved top
- Simple to install
- Supplied un-drilled
- Suitable for DDA applications
- Ideal for commercial and domestic installations
- Non flammable
