Description

Pressalit PLUS left-hand operated counterbalanced support arm with an 730mm overall offset from the wall, that is foldable and can be detached from the vertical track that has the anthracite cover plate.

The height of the arm can easily be adjusted by 240mm from 645 to 885mm.

The ergonomically shaped support arm provides a sense of security for seated users while also facilitating the task of transferring to and from wheelchairs.

The support arm enables a user to rest their arms comfortably while providing optimum support when getting up and sitting down. The arm is designed so the user will recognise by feel where the support arm ends.

Suitable for use with toilet pans projecting 540/550mm from the wall.

Key benefits:

- PLUS support arm, 240mm height adjustable
- 730mm total projection from the wall
- 700mm actual support arm length
- Ergonomic grip for weak hands
- Counterbalanced mechanism that prevents the support arm moving unless guided up or down
- Soft and slip-resistant material that has a warm feel
- The oval shape gives an easy and comfortable surface to lean and push against
- The end of the support arm is enlarged so that it is easier to pull forward from a sitting position
- Provides a clear sense of where the support arm ends
- Can be folded against the wall when not in use to create more room space
- The underside is shaped for the mounting of various accessories
- For indoor use in a wet environment, such as a bathroom or a washroom, in private homes, nursing homes and hospitals
- Doc M compliant
- Range of colours available

Counterbalanced mechanism:

- Prevents the support arm moving unless guided up or down

- For example, if you take it to 45° it will stay at 45° until you push it back up or pull it down further

Technical details:

- Total projection from the wall (mm): 730
- Support arm length (mm): 700
- Top of rail distance from the wall when folded (mm): 53
- Inner grab distance from the wall when folded (mm): 68
