## Description

---

Welcome modular wheelchair access ramp system for domestic use without handrails.

Available in a range for lengths 120cm (4ft) to 480cm (16ft).

This system offers fast assembly, by one person and can be easily transported, dismantled and re-assembled and re-used as required. Offering huge benefits over traditional concrete ramps.

Suitable for a minimum step height 12.5cm (5") to 33cm (13") that can be increased to a maximum height of 50cm (20") with Leg Extensions (Product Code: WLX).

Longer ramps are ideal for higher levels. Ramps are available with handrails and for outward opening doors and or if a rest area is required, ramp kits with platforms are also available.

### Key benefits:

- The ramp is fully self-supporting making the system ideal for uPVC door thresholds
- Extremely durable construction and finish, designed for outdoor use
- Easily modified, adapted and reused
- Fast one-person install the heaviest component is 16kg
- The Gripdeck wearing surface is friendly to pets, high heels and has a superb grip when wet
- Built to last, the system has a huge 400kg capacity
- The height adjustable legs can be adjusted to suit ground variations and a range of step heights
- Materials: Aluminium and galvanised steel
- Designed, manufactured and stocked in the UK for next-day delivery

### Technical specification:

- Range of lengths select above: 120cm (4ft) to 480cm (16ft)
- Internal ramp width - 90cm (35")
- Kerb height - 8cm (3")
- Ramp system - Minimum installed height 12.5cm (5")
- Ramp system - Maximum installed height 33cm (13")
