## Description

---

Ultralight-Combi™ are unique lightweight channel ramps that are both folding and telescopic.

The channel ramps can be used straight or folded over a threshold and offer the greatest flexibility for access.

Available in two sizes with an overall length of 210cm (6ft 11") and 300cm (9ft 10") with a wide channel width of 25cm (9.84").

### Key benefits:

- Can be used straight or folded over a threshold depending on your requirements
- 5cm (2") Low kerbs and long bevel sides greatly increase clearance for scooters and power chairs
- A good choice for bridging a threshold with unequal levels each side
- Compact for storage and stowing in a vehicle
- Excellent solution for going up and over uPVC door thresholds
- The two halves can be used at different lengths from each other, great for use on cross-slopes
- Great for handling cross-slopes, where each half can be adjusted to any length and set at different
