Description

The Manulift 6350HA rise and fall worktop lift is operated by a cranked winding handle by renowned Swedish manufacturer Granberg.

Wall mounted, it creates a height adjustable access solution to cater for both standing and seated users.

Its innovative compartment frame design allows for the installation of fascia fronts and accessories. The 6350HA series are designed for the Granberg Ergosteel 120mm deep shallow bowl kitchen sinks and full extension drawers due to its increased frame height of 103mm.

This version of the Manulift 6350HA can be custom made to any width from 590-1000mm.

Key benefits:

- Cranked winding handle, manual worktop lift with 300mm of stepless height adjustment
- Ingenious folding crank handle, prevents removal and theft
- When ordered the Crank handle can be located either to the left or right hand side of the lift
- Custom made to any size between 590-1000mm
- Discreet wall mounted design
- Movable (sideward) and angle adjustable consoles of compartment frame
- Clever compartment frame system with increased 103mm frame height allows for the installation of drawers and sinks
- Frame supplied assembled for quicker installation
- Includes brackets and screws for installation of fascia fronts and worktop

Optional fascia front:

- Factory fitted 103mm high aluminium compartment frame front cover
- Choice of finish / colour
- For a faster installation on site, the fascia will be factory fitted

Optional accessories:

- The compartment frame design of the Manulift allows for a high level of customisation
- For example, drawers and fronts can be supplied
- In addition, cover panels can be installed to hide the legs and provide a more discreet installation
- For a full list of accessories, please refer to the 'Installation and Help Guides' or contact us to discuss your requirements

Technical details:

- Stepless height adjustment, by a cranked winding handle by 300mm (700 - 1000mm excl. worktop)
