Description

S-Series Minimax Purus 1-part gulley has an extra-low profile of 59mm, specifically designed for installation in concrete / screed floors with a vinyl sheet floor finish.

Ideal for domestic and commercial wet room floors.

Key benefits:

- Low profile waste, reduces volume of concrete / screed required for the floor
- For independent mounting
- NOOD sprung water trap, prevents foul air escaping. The weight of the water opens the trap
- The NOOD water trap is removable for easy cleaning
- Stainless steel clamping ring, for vinyl sheet flooring with 6 x retaining screws

Technical details:

- 215mm overall diameter
- Overall height of 59mm
- Horizontal 50mm outlet with 1 $\frac{1}{2}$ " / (40mm) UK adapter
- Flow rate 28.8 litres/minute (0.48 litres/second)
- The gully must be installed horizontally
- Waste material: PP gully with ABS adapter
- Purus grate: Load class K3 (300kg)
- Circular stainless-steel grate 174mm diameter
- Drop design with 2x fixing screws (Product Code: RSK 712 95 07)
