Anthracite - RAL 9004	£9,705.60

Description

The Granberg Sidelift 6400 module without a worktop or sink with 2x 400mm hanging cabinets on the left and right-hand ends which can be removed, for free space below the rest of the worktop.

The worktop lift is powered by heavy duty motors with 400kg of lifting power located at either end on the short sides.

The motors work steplessly with 300mm of adjustment height, moving the worktop quickly and quietly to the desired height from a range of 700-1000mm from the floor, excluding the worktop.

The lift is supplied with a safety strip along the front edge and safety plates located under each hanging cabinet. The lift stops all movement if any object comes in contact.

The lifting system is available in a choice of 2x colours, White (RAL 9003) as shown in the images, or Anthracite (RAL 9004).

Key benefits:

- Motorised, straight worktop lift with side motors
- Electric operation, with Mini control buttons located on the motor units
- 400kg lifting power
- Cabinets Left-Right
- Safety plates under the cabinets
- Height-adjustable 70-100 cm above the floor (excl. worktop)
- Simple "plug and play" electronics and motor system
- Choice of colours, White RAL 9003 and Anthracite, RAL 9004
- Hanging cabinet materials: Frame in white melamine
- Hanging cabinet materials: Door white-lacquered (NCS 0500-N)
