Description

Kaha cool to touch bar mixer shower makes a statement with its classic, understated form and modern design accents. The thermostatic control maintains your preferred temperature setting, with a pre-set 38°C safety setting to prevent scalding, that allows you to adjust when necessary.

Supplied with a chrome-plated riser rail with adjustable mounting brackets for easy retrofit installation and the Kaha Satinjet handset, body shower and massage sprays, giving a full body experience, like no other.

The Kaha Satinjet hand shower, has unique twin-jet technology to create the perfect water pressure and water droplet size, creating over 300,000 water droplets per second.

Thermostatic mixer bar is cool-to-touch, ideal for families with varying showering abilities.

Key benefits:

- Thermostatic bar mixer shower
- Easy to fit shower rail - simply twist and lock brackets into place
- Soap dish, with drainage slots
- Kaha Satinjet hand shower, with adjustable holder
- Two types of spray - Satinjet body shower or massage
- Easy-fit connectors - For quick and simple installation
- Eco Flow Control with override facility
- Twist-free hose - Easy to use and to clean
- Water efficient without compromising performance
- Suitable for all plumbing systems
- Ceramic discs

Safety features:

- Valve is safe and cool to touch making it ideal for families
- Thermostatic control - Maintain your preferred temperature setting
- Separate flow and temperature controls

- 38°C temperature hot stop with override facility
- Anti-scalding - water is prevented from reaching a temperature hot enough to scald
- Cool-to-touch technology - Ensures the bar valve never gets warmer than the mixed water temperature

Approvals:

- WRAS approved
- TMV2 approved

Technical details:

- Projection from wall (mm): 75
