Description

Maxxus linear shower deck with an adapted Purus Living linear channel drain for wet rooms with a micro cement or resin floor finish. Grey brushed aluminium grate that creates a 3mm upstand.

Available in a range of sizes, the Purus gully outlet can be either low side, side or end parallel (side side).

Key benefits:

- For micro cement and resin flooring
- Material Tanking Collar
- Suitable for timber and concrete floors
- Strong and durable base yet only 22 or 24mm thick - refer to plan drawings for information
- Vacuum formed GRP
- Made from 50% recycled materials and is 100% recyclable
- Solid right through - no pockets or hollow cavities
- Creates a level access floor with no step
- Built in gradients for water removal to the waste
- Accepts 470kg (75 stone) loading over 400mm joist centres
- Self-supporting - no requirement for additional support underneath
- Removable sprung NOOD water trap
- The NOOD no-odour water trap which will not allow any foul air to escape even if the gully dries out
- Grey brushed aluminium grid that creates a 3mm upstand
- Choice of size

Installation:

- May be trimmed down to any size
- Fast 1 hour install - laid straight on joists no under boarding needed
- Totally flat underside and recessed screw holes allow for easy fixing
- No release agent to inhibit bonding of the micro cement and resin floor finish

Includes Purus Living Linear drain with three outlet types with Purus NOOD traps:

- 600mm or 800mm lengths depending on the floor former size
- Plastic-bodied unit
- Choice of three gully outlets each with a ABS pipe reducer 2" to 1½" (50mm to 40mm):
 - - Low Side Outlet up to 32 ltr/min flow rate - depth (mm): 52
 - - End Parallel Outlet up to 72 ltr/min flow rate - depth (mm): 105
 - - Side Outlet up to 72 ltr/min flow rate - depth (mm): 105
- Please select above
- Note: Download PDF installation instructions for more information
