£511.00

The multipurpose glass mirror radiator by Eucotherm, functions as a mirror as well as a sufficient heat source. An ultra slim panel ideal for bathrooms, anti-fog with heat on demand, and no heat dust for those who suffer with allergies. Dimensions 900x600mm. With a heat output of 600 Watts. Optional ceiling mounting kit.

Optional accessory

Infrared Radiator Ceiling Bracket (Set)

£36.75

Eucotherm ceiling mounting set for the Eucotherm infrared radiators. Part of a solution to heat a space, where you are limited on wall space. Ideal for situations where scalding and burning are a risk to the user.

Description

The Infrared Glass Mirror Radiator, by Eucotherm, uses impressive infrared heater FAR technology for heat on demand. A ultra slim panel giving a modern discrete appearance. Can be connected to any plug socket or dedicated circuit. No heat dust, perfect for those who suffer from allergies.

This infrared panel radiator takes up a small amount of space due to its slim panel design. Additionally, the panel can be ceiling mounted, with an optional mounting set. This allows the benefit of the heat without the risk or injuries such as burns and scalding.

Key benefits:

- Room requirement for heating - 40 to 60 watts per square metre
- Infrared heater FAR technology
