Description

The Granberg Sidelift 6400 is an electric motorised worktop lift, that creates a straight ergonomic kitchen worktop lifting system which everyone can use comfortably.

The Hanging cabinets can be hung under the entire lift or under certain sections. The worktop lift is powered by heavy duty motors with 400kg of lifting power located at either end on the short sides.

The motors work steplessly with 300mm of adjustment height, moving the worktop quickly and quietly to the desired height from a range of 700-1000mm from the floor, excluding the worktop.

If needs and requirements change, the optional Hanging Cabinets can easily be removed to provide space. The cabinets can be re-mounted just as easily.

The lift is supplied with a reliable safety system that guarantees safe operation without any risk of crushing. The lift is manufactured to order to facilitate easy installation.

This version is the Sidelift 6400 in Anthracite (RAL 9004) finish, and is available in widths between 2290-3290mm.

Key benefits:

- Height adjustable worktop lift
- Electric operation
- Cabinets can be mounted onto the lift if desired
- 103mm high fascia front
- Lift is prepared in the factory to facilitate easy installation on site
- Simple "plug and play" electronics and motor system
- Anthracite RAL 9004 finish

Includes:

- Factory-mounted aluminium system
- 2x Floor-mounted motors
- 2x Mini control buttons, mounted left and right
- Fittings for worktop

Facia front:

- Factory fitted 103mm high aluminium frame front cover
- Width of fascia front = width of lift -94mm
- Height of fascia front = 103mm
- Depth of fascia front = 16mm
- Choice of Anodised Aluminium or White Powder Coated Aluminium RAL 9003

Recommended accessories:

- Cover panels - (Product code: 6262-240-01)
