Description

AKW 600x600mm 90° angled natural grip plastic white grab rail. Constructed from a core of stainless steel and wrapped in polypropylene designed with an ergonomically distinctive grip this provides a comfortable and easy grip, five fixing points with captive flange covers provides added strength and security alongside an improved overall finish. 46mm rail to wall clearance allows for users with limited dexterity to be able to support themselves.

Key benefits:

- Ergonomically designed grip
- Polypropylene has a unique warm feel for comfort
- Stainless steel rust proof core
- 5 Fixing points for added strength and security
- Captive flange covers to improve the overall finish
- Easy installation as no electrical earthing is required
