AKW Antibacterial Shower Curtain 2000x2000mm Drop

£48.60 Inc. VAT

Product Code: 24072AB

Product Images

Description

AKW plain white shower curtains are made from 100% woven polyester, a water-resistant fabric. The bottom weighted hem prevents the shower curtain clinging to the users or carer.

Anti bacterial material reduces pathogenic transfer from the surface of the curtain to the user or carer.

Shower curtains assist with water retention in the shower tray and must be fitted inside half height shower screens to retain the water. When installed with level access trays they should be fitted so that the curtain drags on the tray by 25mm (1 inch).

Key benefits:

- Plain white
- Easy to clean, machine washable
- Plastic eyelets make it easier to thread onto the curtain rail
- Helps to keep your bathroom floor free from splashes and sprays of water
- Semi-permeable and breathable, fast drying time gives an added level of safety
- Curtain material: 100% woven polyester, water resistant fabric
- Anti Bacterial - Reduces pathogenic transfer from the surface of the curtain to the user or carer
- Weighted hem
- Prevents clinging and stays within the showering area
- 1x Hook & Glider Pack included (11x)
- Size: (Width x Drop): 2000x2000mm

Warranty:

- Lifetime manufacturer warranty
