Description

The AKW Silverdale window rail kit provides a simple solution to bridging difficult window positions when installing shower enclosures and rails when windows cause an obstruction.

It can be used as an alternative to a 'U' shaped curtain rail when a window encroaches within the showering area.

Key benefits:

- Luxury Silverdale finish to curtain rail
- Robust, easy to fit and trimmable
- Grey coloured Silverdale wall brackets
- 1800mm width x 1400mm drop standard white shower curtain
- Designed to support the enclosure when installed over a window
- Allows installers to adapt the installation to suit users' requirements

Fitting kit included:

- 1500mm straight Silverdale curtain rail
- 'T' piece and all the relevant fixings needed to assemble the window kit
- 2x Silverdale wall brackets
- 1x Pack of hooks and gliders (11x of each)
