Description

The AKW Freeway carer screen is an easily portable alternative to a fixed shower enclosure.

Helps to keep the carer dry during assisted showering as it is compact and lightweight. Easily stored when not in use, due to its folding design.

Useful in bathrooms or wetrooms where access is limited and flexibility of placement provides greater

accessibility to the showering area.

Key benefits:

- Frames engineered from high grade aluminium, providing quality and durability
- Easy movement of panels due to hardwearing Nylon 6 360 degree hinges
- Robust 'D' handles fitted as standard, to assist with positioning and lifting
- Easily portable - can be moved effortlessly from room to room
- Low screen height of 900cm
- Can be used in conjunction with a shower tray or wet room vinyl safety flooring
- Folds flat for compact storage
- Lightweight PET panels, provides shatterproof glazing for added safety
- PET panels are glazed, offering privacy for user
- Weight: 10-13kg

Technical details:

- Number of panels: Two
- Panel dimensions see image gallery (mm): 650x650
- Screen height (mm): 900

Please note:

- This is a free-standing screen; water will flow below and around the screen. This not a water barrier.
