Description

The AKW iTherm 9.5kW thermostatic shower, with a standard riser rail kit. Expertly designed, an electric shower encompassing a multitude of features designed to aid with personal or assisted showering. Features, such as the LED indicators for the temperature and flow that assist with visual impairments, thermostatic maximum temperature protection and thermostatic temperature stability.

The shower has also been designed to assist the installer with simple but thoughtful features such as 8 different electric and water entry points, dual power blocks for right or left-hand wiring and a footprint that covers most manufacturer models; this reduces the chances of having to re-tile if retrofitting.

Key benefits:

- Super-quick and easy installation
- Electronic thermostatic Temperature and Flow Control
- Independent LED Temperature and flow Indicator and controls
- Thermostatically Stabilised Temperature
- Maximum water temperature protection
- Easy push Power button maintaining Temp/Flow settings
- Automatic shutdown time of 30 minutes
- Rounded surfaces for added safety if the user falls in the shower
- Chromed 600mm standard adjustable riser rail kit
- Includes a 3 mode shower head
- 1500mm shower hose
- Soap Dish
- No re-tiling required, ideal for refurbishment work

Product compatibility:

- All AKW digital and manual shower pumps
- Wireless pumped interface
- Suitable for AKW M Series, (flow sensor) or AKW A4 (flow switch)
