Description

The digipump M17 with standard 50mm diameter chrome waste is designed to provide a quiet, reliable, and high-performance waste drainage in showering areas where gravity drainage is not achievable.

Quiet and easily serviceable this pump is designed for better removal of debris, the start up and run on settings ensures full drainage of the shower tray.

A hard-wire connection can be made to the flow sensor of ITherm electric showers and many other brands, but this also offers a wireless connection to the flow sensor within AKW SmartCare Plus Lever electric showers.

Key benefits:

- Extremely quiet operation
- Control box with built in test facility
- Compact making it ideal for bathrooms with limited space
- Pump head has 4 valves allowing for efficient debris removal
- Two non-return valves prevent water flowing back through the pump
