## Description

The Granberg ES 35 is an excellent shallow two bowl kitchen sink with draining board, its high quality materials making it ideal for both domestic and commercial installations.

With one and half bowls both with a shallow depth of just 120mm, this sink is ideal for inseting into a height adjustable worktop lift with space for a draining board, providing a comfortable food preparation and dishwashing area.

### Key benefits:

- Provides more space below the sink for the user's legs and knees
- Insulated to protect the users legs and knees
- Main dishwashing with a depth of 120mm
- Secondary bowl with a depth of 120mm
- Central positioned wastes
- Shallow waste traps with 90mm dia. waste outlets for each sink bowl
- Ideal for installing in a height adjustable worktop system
- Smooth stainless steel construction
- Universal flange allows it to be inset or under-mounted
- Free space either side of the bowls for mounting a monobloc tap - requires tap hole cutter
- Turn able for left or right side use
- Includes manual basket wastes, overflows and water traps
- Waste kit includes inlet options for washing machine and dishwasher waste feeds
- Includes 200-650mm flexible waste kit (Product Code: 61801)

### Technical details:

### Mounting - Inset

- A hole is cut in the worktop and the inset sink is put in position from above. The inset sink is then fastened underneath with fittings while the outer edge lies on top of the worktop. This method is suitable for all types of worktop materials except natural stone. The hole is made on site by a fitter.

### Mounting - Under-mounted

- A hole with an edge is milled out in the worktop from below. The inset sink is then glued on from underneath. The thickness of the visible material above the sink varies depends on the thickness of material i.e. solid surface or acrylic stone.
