Description

The Granberg ES 30 is an excellent space saving shallow two bowl kitchen sink, its high quality materials making it ideal for both domestic and commercial installations.

With twin bowls both with a shallow depth of just 120mm, this sink is ideal for inseting into a height-adjustable worktop lift for a compact kitchen adaptation where space is limited.

Key benefits:

- Provides more space below the sink for the user's legs and knees
- Insulated to protect the users legs and knees
- Both sink bowls for dishwashing with a depth of 120mm
- Central positioned wastes
- Shallow waste traps with 90mm dia. waste outlets in each sink bowl
- Ideal for installing in a height adjustable worktop system
- Smooth stainless steel construction
- Universal flange allows it to be inset or under-mounted
- Free space in-between the bowl corners for mounting a monobloc tap - requires tap hole cutter
- Turn able for left or right side use
- Includes manual basket wastes, overflows and water traps
- Waste kit includes inlet options for washing machine and dishwasher waste feeds
- Includes 200-650mm flexible waste (Product Code: 61801)

Mounting - Inset

- A hole is cut in the worktop and the inset sink is put in position from above. The inset sink is then fastened underneath with fittings while the outer edge lies on top of the worktop. This method is suitable for all types of worktop materials except natural stone. The hole is made on site by a fitter.

Mounting - Under-mounted

- A hole with an edge is milled out in the worktop from below. The inset sink is then glued on from underneath. The thickness of the visible material above the sink varies depends on the thickness of material i.e. solid surface or acrylic stone.
