Product Images

Description

This compact AKW gravity waste suitable for use with push fit & solvent weld pipe with the included adaptor, solid floors and shallow joists.

The waste will not dry out with occasional use, the non return valve always retains water aiding in the prevention of bad odour backflow, this version has the plastic chromed waste top.

Key benefits:

- Suitable for shower trays with a Ø 90mm waste hole
- Useful for solid floors or shallow joists
- Suitable for use with push fit with the included adaptor
- Suitable for solvent weld pipe with included adaptor
- Top access allows for ease of cleaning and maintenance
- Watertight fitting
- Good seals and valve location
- Non return valve ensures the trap retains water aiding in prevention of bad odour backflow
- Non return valve prevents the trap from drying out with sporadic use
- Can be specified with vinyl flooring
- Depth below tray: 60mm
- Overall depth: 53mm
- Waste diameter: 90mm
- Flow rate: approx. 31 l/m
- Included pipe adaptor kit

Warranty:

- Lifetime Warranty (please refer to AKW's terms and conditions)
