Description

The Renaissance Excel 600 is a height adjustable bath for use in nursing situations or where particular care is required.

The electrically operated bath rises smoothly and quietly once the seat has been gently powered into the bath by the hand control.

Free site visit and demonstration available - please contact us

Key benefits:

- 340mm Height adjustable bath with powered swing seat
- Electrically operated with battery backup for client evacuation, in the event of power failure
- Seat has a removable insert to ease cleaning
- 1700x750mm left or right hand swing seat
- End Chrome pop-up waste, located at the opposing end of seat
- Includes all panels: 2x hoist access side panels, 2x end panels
- Bath height Low / High lifting range (mm): 720 to 1060
- Bath height in raised position (mm): 1060

- Bath height in lowered position (mm): 720
- Seat height (out of bath) in raised position (mm): 863
- Seat height (out of bath) in lowered position (mm): 473
- Front panel cut-out for hoist access (mm): 1030 L x 150 H
- Safe-working Load 24st / 150kg
- Acrylic bath shell, manufactured in the UK, CE compliant

Handset had 4 simple control buttons:

- Easy to use
- The "Seat in" button lifts the seat up, swings it over and then lowers it into the bath
- The "Bath up" button raises the bath to a comfortable height
- The "Bath down" button lowers the bath after bathing
- The "Seat out" does the reverse - lifts the seat up out of the bath, swings it over the side and then lowers on the outside of the bath
- The seat can be stopped at any point by simply taking your finger off the button

Safety Feature

- If the mains power is lost at any time, an alarm will sound if the handset is in use
- The bath will then simply lower and the seat will lift out of the bath and come to a stop once it has reached its lowest point outside the bath
- Neither the seat nor the bath will move again until the mains electric has been restored

Standard equipment - Supplied fitted and plumbed:

- Pair of Lever Taps with Underbath TMV3 Valve - WRAS approved
- TMV3 Shower System CAT5 Fluid Safe (Shepherd's Crook) is the necessary choice in multi-user situations for commercial installations i.e. care homes
- Nursing Arms - improves comfort by allowing bather to rest arms
- Lap Belt - for securing bather in the seat

Delivery:

- Standard delivery - one man delivering to curbside
- Two man delivery - delivery to ground floor bathroom
- Please contact us if the intended location of the bath is beyond the ground floor or is difficult to access

Commissioning:

- Commissioning by Renaissance ensures correct installation and training on safe use of the bath
- This is optional for domestic installations, but is essential for commercial properties to maintain LOLER compliance

Electrical requirements:

- 230V AC supply - requires a 30mA RDC with a 4A waterproof switched fused spur (not supplied)
- Supplied with a standard UK 3 pin plug for testing and setting up purposes, this must be removed and wired to your 4A waterproof fused spur
- Backup battery requires a continuous power supply to maintain the batteries condition
- All electrical installations should be performed by a qualified electrician

Warranty:

- Mechanical and electronic components have a full 12 month warranty
- Bath shell has a 25 year manufacturer guarantee against material and manufacturing defects

Manufacturer product codes:

- 1775XL6EL, 1775XL6ER
