Description

AKW 38mm high toilet plinth, for raising the physical height of most standard WC toilet pans, if you are unsure please check your toilet pan.

- Toilet plinth to be used to permanently raise the height of a WC pan by 38mm
- Screw directly to the floor or shower tray

- GRP construction
- An alternative to using raised height toilet seats
- Universal - can be used with virtually all WC pans
- Provides stability and strength
- 4x Countersunk screw holes (Fixing screws are not supplied)
- Note - Additional folding support arms positioned either side of the WC can assist the user when standing or sitting

Plan view size:

- Base footprint: 440mm (L) x 280mm (W)

Warranty:

- Made for life - manufacturer warranty

Note:

- Check the image gallery for the plinth dimensions and check your toilet pans footprint dimensions to ensure you are buying the correct plinth for your pan
