Innovations Silver Microcement Grid

£150.00 Inc. VAT

Product Code: MC130SL

Product Images

Description

Silver microcement grid manufactured from aluminium with a coloured finish, designed exclusively for Wetroom Innovations to be fully compatible with all Purus "Mini" drains. The 130 mm diameter grate can be installed as a standard grid finish or flipped to create a seamless microcement infill design.

Designed specifically for modern microcement wetroom floors, the reversible design allows the surrounding

floor finish to continue into the grate for a minimalist, almost invisible appearance.

Also available as part of complete wetroom kits with a Maxxus floor former and 2-part Purus waste (see Product Code: MC).

The grate simply replaces the standard round plastic cover supplied with compatible Purus waste gullies and remains removable for easy access and maintenance of the drain below.

Technical details:

- Diameter: 130 mm
- Designed specifically for microcement floors
- 3 mm upstand for microcement infill
- Reversible design – standard grid or microcement insert finish
- Material: Aluminium with coloured finish
- Colour: Silver
