Hafele Heavy Duty Parallel Foldaway Shelf Mechanism - Max. 8kg

£142.37 Inc. VAT

Product Code: 4G40160

Product Images

Description

Heavy duty foldaway shelf for supporting heavy kitchen appliances such as food mixers up to 8kg in weight.

In the fully extended position the shelf lies flush with the worktop above the base unit.

The shelf can then be lifted up to release the locking mechanism, before folding back to the stored position in the cupboard.

Key benefits:

- Heavy duty folding appliance shelf
- White lacquered steel construction
- Galvanised steel 150N tension springs - 2x springs included as standard
- Cranked mounting brackets prevent the door hinges fouling the shelf when raised
- Maximum load of 8kg

Technical details:

- For cabinet widths of 350-600mm
- Installation width is optional between 300-568mm as the two arms are completely separate
- Maximum shelf width is internal cabinet width less 90mm
- Effective height 280mm
- Installation height 445mm
- Swivel depth of 425mm
- When mounted directly beneath the worktop the smallest remaining usable height within the cabinet is 340mm

Please note:

- Shelf and appliances are not included
