BB-1000 Supreme Round Seat Specification
All Measurement are in cm

Description

The Bio Bidet BB-1000 Supreme is a remote controlled electronic toilet bidet with luxury heated toilet seat, warm water spray and heated air dryer for the ultimate in cleanliness and comfort.

A cost effective shower toilet for use by the elderly, disabled and those suffering from medical conditions like multiple sclerosis.

With state-of-the-art slim design, the Bio Bidet will compliment your bathroom environment.

The seat's control panel is intelligently designed for easy and efficient operation, with highly visible LEDs and touch sensitive symbolized functions that can be easily identified and controlled, even by first time users.

Quiet and smooth running, the built-in motor lets users control the water stream, so you can set it to your own desired temperature and pressure.

Key benefits:

- Eliminates the need for toilet paper
- Elongated remote control for operation
- A brilliant space saver - functioning as a toilet seat as well as an electronically controlled bidet
- Significant improvement of personal hygiene
- Separate Posterior Wash and Feminine Wash settings
- Cleansing during and after menstruation
- Easily replaces most standard toilet seats - Please check the toilet sizing diagrams for more information
- Converts a conventional toilet into a sophisticated shower toilet
- Soft close heated toilet seat and lid
- Carbon deodorizer cartridge with air circulation fan
- Slim remote control wall holder
- Static weight limit: 21 stone (133kg)
- Economy modes to save energy
- See PDF download for more information on how to override the seat sensor if you are using with a

shower chair

- Water temperature (3 levels)
- Seat temperature (3 levels)
- Air current for the deodorizer (4 levels)
- Economy, Energy Save Modes (2 levels)
- Please download the PDF "Bio Bidet BB-800 and BB-1000: Installation Manual and Operating Instructions" for more information

Water connection:

- For direct connection to the water supply, this unit should be plumbed into the water supply feeding the toilet cistern (using the flexible hose and T connector supplied)
- Water back flow prevention measures built-in (air gap solution)
- Minimum required inlet pressure: 0.4 bar

Electrical installation:

- Supplied with a 3000mm power cord, that should be wired directly to a switched fused spur and RCD to your electrical supply
- Suitable for use in the bathroom
- IPX4 rated
- A qualified electrician should install the fused spur for the Bio Bidet in accordance with the Building Regulation Part P

Warranty:

- 1 year manufacturer warranty
- Return to base, site repairs are not available

Please note:

- The Bio Bidet must not be in the direct line of a shower spray in a bathroom or shower room installation
- Some form of partition between a shower and the Bio Bidet is advisable to prevent any water spraying directly onto the equipment
- A shower should not be used in conjunction with the Bio Bidet - under no circumstances should a user shower whilst seated on the Bio Bidet

Returns: Please note:

- Due health and hygiene and infection control this product is non-returnable
