Description

Ropox self assembly FlexiElectric worktop frame with 650 to 950mm vertical height adjustment via a quiet 24V DC electric motor.

A cost effective way of purchasing this system compared to the ready assembled units, they are also ideal if you have limited space to manoeuvre an assembled frame.

- Ideal for single person and/or multiple users of the kitchen where regular adjustment is required
- Ideal for installing an electric hob or kitchen sink (requires flexible plumbing kit)
- Standard RAL 9010, matt white
- 150kg maximum load - evenly distributed

- Electrical adjustment with two low-noise 24V motors / 2.5A / 50 Hz
- Frame vertically height adjustable from 650 - 950mm
- For worktop depths 600 - 620mm
- Speed - Approx. 12mm / sec
- Lifting time stroke 30mm : Approx. 30 sec.
- Supplied with (Green/Black) colour coded legs - See Page 6 of the installation instructions for more information.
- **Note:** The 1x Motor is recommended for use with worktops up to 1040mm in length, after which 2x motors are required

Kit includes:

- 1x Wall Bar Profile (1150mm length) and Spindle (1050mm length)
- 2x Support Legs
- 2x Support Arms
- 1x Motor with 3000mm cable and Control Unit
- 1x Standard Mini Control Switch with Up/Down arrows (Width x Height) 30 x 60mm
- The Standard Mini Control Switch includes 1500mm cable

Available separately:

- Support feet - to be used if the supporting wall is of insufficient strength
- Height adjustable leg covers - for use with or without support feet
- Flexible plumbing kit
- Safety stop strip - highly recommended, prevents crushing or accidental entrapment. Position along the front edge and sides
- FlexiCorner Bracket Set - joins 2x Flexi height adjustable worktop frame assemblies together

Please note:

- The wall bar and spindle will have to be cut to your required length - the profile should be 50mm shorter than worktop length
- Worktop, wall fixings and front fascia for mounting on the support arms are not included
- Safety stop strips are not included - Available in lengths of 1600, 2400mm

Warranty:

- 1 year manufacturer warranty
