Granberg Double Frame - Black

Product Code: 61352-10

Product Images

Description

The Granberg black double compartment frame is designed for combining two Granberg black control buttons or switches into a single neat recessed installation.

Ideal for accessible kitchens and height-adjustable installations, the double frame allows multiple Granberg control buttons to be grouped together within one clean, modern fascia layout. This provides a more integrated appearance while improving ease of use in multi-system kitchen environments.

Finished in black to match the latest Granberg wired and wireless control buttons, the frame is suitable for a wide range of accessible kitchen applications including worktop lifts, cabinet lifts and height-adjustable kitchen islands.

The double frame is ideal for installations where separate Granberg systems require independent control, such as combining cabinet lift controls with height-adjustable worktop or island systems.

Key benefits:

- Double compartment frame for Granberg black control buttons
- Designed to combine two control buttons or switches in one frame
- Black finish for a clean modern appearance
- Suitable for recessed mounting installations
- Creates a neat integrated control layout
- Ideal for accessible and inclusive kitchens
- Compatible with Granberg wired and wireless black control buttons
- Suitable for worktop lifts, cabinet lifts and kitchen island systems

Designed for accessible kitchens:

- Ideal for wheelchair-accessible kitchen installations
- Supports inclusive kitchen design principles
- Improves organisation of multiple lift controls
- Suitable for multi-user height-adjustable kitchens
- Compatible with Granberg accessible kitchen systems

Technical details:
