Product Images

Description

These Ropox Control Boxes manage the motor drive units of the FlexiElectric height adjustable worktop system.

- Ropox control box suitable for FlexiElectric worktop frame systems
- Includes power supply cable
- Includes 1x Ropox Standard Mini Control Switch with Up/Down arrows (Width x Height) 30 x 60mm
- The Standard Mini Control Switch includes 1500mm cable
- Suitable for worktops greater than 1040mm in length where 2 motors are needed
- Cables from the motors and safety stop strips plug into the control box

Please note:

- The control box unit must be fitted below the worktop
- 2x Motors are not included

Compatibility

- This control box is the newer design and is NOT the direct replacement for the older style Control Box Ropox: 30-67850-8
- If you are replacing Ropox: 30-67850-8 Control box, you will need to replace the Safety Stop Strip as these have a different resistance.

Warranty:

- 1 year manufacturer warranty
