Description

The Relaxa Bath Belt Lift is a British-made motorised belt device, designed to help people get into and out of the bath safely.

With its sleek blue styling and easy-to-use hand controller, the Relaxa Bath Lift is a simple and effective solution to a common mobility issue.

Key benefits:

- Motorised bath belt lift - enables easy access to and from the bath
- "UP" and "DOWN" buttons are located on the front of the bathlift
- Sealed wired hand control with "UP" and "DOWN" buttons

- Battery powered - no mains electricity required in the bathroom
- Simple push button controller
- Corrosion resistant - stainless steel construction for improved corrosion resistance
- Easy to fit
- Does not obstruct the bath
- Manufactured in the United Kingdom

Power and Safety features:

- Water thermometer with immersible probe - states the temperature of the water to prevent scalding
- Indicator lights in green and red shows the battery is in operation and the battery condition
- A red light will appear to indicate that the battery is low together with an audible alarm
- An empty battery symbol will appear when the battery is too low
- The bath lift will not work in the down position but will bring you back out of the bath
- Built-in safety feature prevents excessive belt tensioning - i.e. if the control button is held down too long when stretching the belt across the bath
- Belt-reversal device - prevents the belt from rolling up in reverse
- Integral handle that can be removed or re-sited as required

Includes:

- 1x Relaxa Bath Lift - with handheld push button controller
- 1x Belt Sleeve - fixes over the bath belt to improve comfort
- 1x Wall Mounting Plate - for solid walls
- 1x Wired Water Temperature Probe with suction cup - temperature is displayed on the LED screen of the lift's front cover
- 1x Floor Anchor Bar
- 1x Battery Power Pack - (with two x 12 volt rechargeable lead acid batteries) provide a 24 volt DC supply to the motor
- 1x Battery Charger - 24v 300MA charger
- Battery charger supplied with adaptors suitable for UK and European use, designed to cope with a voltage range between 100-240V 50/60Hz AC
- 1x Installation and Instruction Manual

Optional extras:

- Shower Cap Cover - protects device against direct high pressure water from a nearby shower
- Please select above if required

Technical details:

- Unit length (mm): 555
- Unit depth (mm): 118
- Unit height (mm): 325
- Unit weight (kg): 11
- Belt re-inforced Polypropylene
- Belt width (mm): 355
- Belt length (mm): 2500
- Max. load (kg): 127
- Max. load (stone): 20
- Battery length (mm): 290
- Battery weight (kg): 1.5
- Complete shipped weight including packaging (kg): 15.9

Warranty:

- 1 year manufacturer warranty

Please note:

- Fixing and fixing screws are NOT included - please follow installation instructions, see 'Installation and Help Guides' for more information
- When fixing to a stud or non-solid wall, please order the Relaxa Bath Lift Back Plate for Stud Wall Fixing (Product Code: 4E8W027B)
- The belt of the bath lift is not designed to be rolled away with the belt sleeve still attached
- Although the belt is very tight during use, we would only suggest users with good upper body strength and balance use this bath lift
- The lift will not operate 100% efficiently against a bath with a curved exterior
- The optional Shower Cap Cover is not designed for continuous wetting or immersion of the unit in water - it must also be removed periodically to allow the unit to breathe
