Additional Supports

Pair of Integrated Fold Down Support Arms - Factory Fitted

£332.31

Robust and secure folding support arms for the Palma Vita. Aids stability and wheelchair transfers. Compatible with the 25 and 50mm concealed shaped plinths only. Note: The support brackets are supplied pre-fitted, and the arms are supplied separately loose for site installation. Can be upgrade with Lateral Side Supports and Soft dark blue arm sleeves.

Pair of Soft Arm Sleeves - Requires the Integrated Support Arms

£78.46

Easy fit, soft arm sleeves slide over the integrated support arms to provide comfortable, hygienic, and stylish hand grips for the integrated support arms. Dark blue in colour, ideal for users with visual impairment.

Pair of Lateral Body Supports - Requires the Integrated Support Arms

£175.38

These easily adjustable and comfortable additions help to provide extra support and stability to the user, when used conjunction with the integrated support arms (also required) onto which these fit.

Controls

Touch Sensitive Hand / Foot Switch (TSHS) with Wall Bracket

£198.46

The Touch Sensitive Hand / Foot Switch (TSHS) is for users who are unable to use the standard elbow pads on the cistern. Air pressure operated, no electricity is required, only very light pressure is needed to start the cleaning, washing, drying, and flushing cycle. Supplied pre-fitted and ready to use. Includes wall mounting bracket.

Infrared Proxy Switch

£198.46

Passive technology, Closomat infrared proxy switch, for users with little or no grip, to activate the WC wash, dry and flush cycle, simply by passing their hand / body-part in front of the infrared sensor.

Handheld Infrared Remote Control, with Wall Bracket

£460.61

This simplistic 'push and go' style infrared control provides a versatile option lending itself particularly for use by carers for Closomat Palma Vita toilet flushing. Includes wall bracket.

Seat Sensor Bypass - For Shower Chairs & Hoists - Factory Setting

The seat sensor bypass allows use of an overhead hoist or shower chairs, this overrides the sensor detection of a user sitting on the Palma Vita shower toilet.

Concealed Plinths

25mm Concealed Shaped Plinth

£78.46

The plinth raises the whole shower toilet unit, ideal for the taller user. Concealed by the toilet's height-adjustable skirt. Also, for use with a shower chair and to aid wheelchair transfers. Compatible with the Integrated support arms. 25mm height.

50mm Concealed Shaped Plinth

£78.46

The plinth raises the whole shower toilet unit, ideal for the taller user. Concealed by the toilet's height-adjustable skirt. Also for use with a shower chair and to aid wheelchair transfers. Compatible with the integrated support arms. 50mm height.

75mm Concealed Shaped Plinth

£78.46

The plinth raises the whole shower toilet unit, ideal for the taller user. Concealed by the toilet's height-adjustable skirt. Also for use with a shower chair and to aid wheelchair transfers. Not compatible with the integrated support arms. 75mm height.

100mm Concealed Shaped Plinth

£78.46

The plinth raises the whole shower toilet unit, ideal for the taller user. Concealed by the toilet's height-adjustable skirt. Also for use with a shower chair and to aid wheelchair transfers. Not compatible with the integrated support arms. 100mm height.

Infill Panel

25mm Rear Wall Infill Panel

£115.38

25mm depth wall infill panel has been designed to aid installations where pipework inhibits the Closomat from being positioned back to the wall. Infill panel is 100mm taller than Closomat. It must be cut from bottom to suit finished toilet height.

50mm Rear Wall Infill Panel

£115.38

The 50mm depth wall infill panel has been designed to aid installations where pipework inhibits the Closomat from being positioned back to the wall. Infill panel is 100mm taller than Closomat. It must be cut from bottom to suit finished toilet height.

75mm Rear Wall Infill Panel

£115.38

75mm depth wall infill panel has been designed to aid installations where pipework inhibits the Closomat from being positioned back to the wall. Infill panel is 100mm taller than Closomat. It must be cut from bottom to suit finished toilet height.

Seat Upgrade Options

Description

The Closomat Palma Vita is a floor standing automatic shower toilet that provides washing, flushing and warm air drying from one simple operation.

User-friendly, the Palma Vita is also ideal for those who have restricted use of their hands.

By reducing hand contact, it also improves hygiene for all users.

Key benefits:

- Combines functions of a WC and bidet with addition of drying air
- Improves personal hygiene - cleaning with warm water not paper
- Simultaneous flushing and washing (a unique feature)
- Unique one-touch system - allows the user to operate the toilet simply by pressing and releasing the elbow pads mounted either side of the cistern
- Customisable to suit each individual's needs
- Height adjustable skirt elegantly conceals the raised plinths
- Can be used at all times as a conventional WC
- UK made in a dedicated plant

Douche arm selection:

- Standard douche arm
- Extended single spray douche arm - for the larger user
- Extended twin spray douche arm - for female users
- All douche arm options are included in the price of the Palma Vita
- For more information, please refer to the 'Douche Arms Specification Guide' in the 'Installation and Help Guides' section above

Optional extras:

Integrated Fold-down Support Arms

- Robust and secure support arms designed and manufactured specifically for the Palma Vita
- The support arms fold out of the way to aid side transfer from a wheelchair and can further aid the user's stability
- The arms are ideal for installations where the wall construction is poor
- Safe working load: 190kg/30st
- Note: Maximum concealed plinth height 50mm when arms are fitted to ensure stability of the toilet
- The fold-down support arm brackets are pre-fitted, but the arms are supplied loose for site installation
- For more information, please refer to the 'Integrated Fold-down Support Arms - Technical Data Sheet' in the 'Installation and Help Guides' section

Soft Arm Sleeves

- Easy to fit, soft arm sleeves provide a comfortable and hygienic hand grip
- Dark blue in colour - aids the visually impaired
- For use in conjunction with the integrated support arms

Lateral Body Supports

- These easily adjustable and comfortable additions help to provide extra side support and stability to the user
- For use in conjunction with the integrated support arms

Touch Sensitive Hand / Foot Switch (HTFS)

- This device is for users who are unable to use the standard elbow pads
- Air operated, no electricity is required to operate it, only very light pressure
- Includes wall mounting bracket
- Can be placed on the floor or handheld

Proxy Switch

- Making use of "passive technology", the proxy switch allows users with little or no grip to activate the unit, simply by pressing their hand / body part in front of the sensor

Infrared Remote Control

- This simplistic 'push and go' style infrared control provides a versatile option which is ideal for use by carers
- Includes wall mounting bracket

Concealed Floor Plinths

- Plinths for raising the toilet height
- For use with a shower chair or to aid direct wheelchair transfer
- The plinth is concealed by the toilet's height adjustable skirt
- Note: If ordering the Integrated Support Arms - The maximum allowable plinth height is 50mm

Rear Infill Panel

- The infill panel has been designed to aid installations where pipe-work inhibits the Palma Vita from being located against the wall
- The infill panel is 100mm taller than the Palma Vita - it must be cut from the bottom to suit the toilet height
- Available in a range of thickness sizes: 25, 50 and 75mm

Seat Upgrade Options:

- Upgrade options available are junior, adult, and adult horseshoe open fronted soft seats
- All soft seats are supplied in a dark blue colour to aid the visually impaired and with a white toilet seat lid
- For more information, please refer to the 'Toilet Seat Dimensions' in the 'Installation and Help Guides' section above

Junior soft seat:

- - Aperture 165mm wide x 250mm depth

Adult soft seat:

- - Aperture 225mm wide x 291mm depth

Adult horseshoe open fronted soft seat:

- - 83mm open front width. Aperture 223mm wide x 384mm overall depth

Warranty and commissioning:

- 1 year manufacturer warranty as standard
- Options to increase the warranty - please select above if desired
- Commissioning by Closomat is included in the price - once installed, please contact them directly to arrange a site visit
- Warranty period starts once commissioning has been completed

Technical details:
