£348.60 Inc. VAT

Product Code: 50431-5000

Product Images

Description

Replacement safety trip panel for the Diago 504 wall cabinet lifting systems.

The micro switches in the safety trip panel(s) will be activated, if the panel is pressed or hits an obstruction on the work surface i.e. glass, cup or hand. The Diago will rise upwards until the micro switches are de-activated.

The safety stop panel(s) should be fixed to the underside of your wall cabinet(s) in accordance with the assembly instructions.

Technical details:

- Thickness (mm): 12
- Depth (mm): 350
- For cabinet width (mm): 500
- Order 2 x panels for a 1000mm cabinet width
- White painted MDF

Warranty:

- 2 year manufacturer warranty
