## Description

---

A single preformed fabric internal corner for wet room tanking systems, designed to be painted with liquid waterproofing membrane to create a waterproof and flexible reinforced internal corner joint, when used with Tanking Joint Tape.

Used for internal corners, the fabric material is durable yet very flexible.

**Key benefits:**

- Internal fabric corner
- 120 x 120 x 90mm
- Durable
- Very flexible
- Note: The colour may differ
