Description

The Granberg Basicline 403-2 is a height adjustable bracket mount for washbasins.

Manually adjustable, it is ideal for situations where the height is not to be adjusted every day.

This version of the Basicline has an increased depth of 120mm to offset the basin further from the wall.

Key benefits:

- 250mm Height adjustable bracket for basins
- Manual adjustment using a socket wrench
- Track design gives it step-less adjustment
- Includes nut and bolt fixings for mounting most common types of washbasins onto the bracket
- The system can be completed with a wash basin, tap, 500mm flexible feeds and waste (available separately)
- Offsets the basin from the wall by 120mm - ideal for when there are cabinets above

Technical details:

- Width of bracket (mm): 600
- Depth of bracket (mm): 120
- Height adjustment (mm): 250
- Basin centre-to-centre fixings (mm): 280
- Maximum depth (mm): 600 (for basin available separately)
- Maximum width (mm): 600 (for basin available separately)
- Free space below the unit for plumbing connections (available separately)
- Max washbasin load (kg): 40

Warranty:

- 2 year manufacturer warranty
