Showerwall Sureseal - 2450mm Length 2 Part Flexible Seal - White, Satin Silver or Black

Product Code: SHWL-002

From: £14.98
To: £15.52
Inc. VAT

Product Images

Recommended Fixings

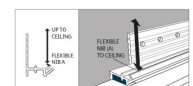

Galvanised Slab Nail
Size: 18mm (3/4")

Flat Head
Countersunk Screw
Size: 18mm (3/4") x No. 6

When using Sureseal the height of the panel should be taken from the top of the base trim's flexible rib (A) to the ceiling.

This will allow the necessary clearance to install the panels and to accommodate the required 2mm gap at the top of the panel for sealant.

Product Options

Description

Showerwall 2 part Sureseal provides excellent water sealing performance of Showerwall panels with a fully enclosed sealant line and 4 points of seal. The neat trim capping, provides an aesthetically pleasing finish at the base of the Showerwall panel and adds two points of further sealing to the wall panelling system.

To be used with Showerwall Silicon Sealant (order separately).

The Showerwall Sureseal Strip may also require end caps (Product Code: SHWL-007 - order separately) when installing as part of the Showerwall waterproof wall panels system.

Key benefits:

- 1 x 2450mm length
- White coloured inner seal for all trims
- 2 Part enhanced sealing performance - clip on outer cover available in a choice of colours - White, Satin Silver or Black
- 4 Point sealing system

- PVC Construction
- Quick and easy to install
- Fit and forget, no future re-sealing required
- No visible sealant lines– Aesthetically superior
- Reduces risk of damage to the base of the panels and discolouration of the Sealant from bleaches and hair dyes etc.
- For use with Square edge Panels and ProClick Panels - (order separately)
- A Mitre box should be used to cut trims
- Should be installed with Showerwall Sealant – White (Product Code: SHWL-005) or Clear (Product Code: SHWL-006) - order separately)
- Download the Showerwall Installation instructions, see 'Installation and Help Guides' for more information
