"See PDF data sheet - Download for more information"

Description

This white powder coated pivot hinge set from Royde & Tucker allows doors to swing in either direction, ideal for light duty internal doors.

Constructed from mild steel, British made to ensure quality.

Key benefits:

- Door bottom pivot and top centre brackets
- Allows doors to swing in either direction
- Door plates radii R6 for easier preparation
- Bottom bracket is frame or floor mounted

- For light duty internal doors
- Top and bottom door plates have HI-LOAD maintenance free oil impregnated bronze bearings
- Mild steel construction, white powder coated (incl. screw heads)

Technical details:

- Minimum door thickness 38mm
- R12 radius is required on the pivot edge
- Maximum door width 950mm
- To suit doors up to 20kg - when bracket frame mounted
- To suit doors up to 40kg - when bracket floor mounted

Parts supplied:

- 2 x Doorplates
- 2 x Cover plates
- 1 x Top frame bracket
- 1 x Bottom pivot bracket
- 5 x 1-1/4" x No. 10 Woodscrews, for brackets
- 4 x 1-1/4" x No. 8 Woodscrews, for brackets
- Installation Instructions

Please note:

- This item is NOT suitable for Fire Doors or wet areas

Recommended accessories:

- Emergency release door stop - prevents pivot swing except in cases of emergency
- Brush strips - it is recommended that both lock and hinge stiles are brush stripped for privacy

Warranty:

- 1-year manufacturer warranty
